Report Overview

Research Beam adds a report titled “[Enterprise Mobile Devices: Key Trends, Market Size, Vendor Share and Forecasts 2014 – 2019](#)” that provides detailed information of the Enterprise Mobile Devices. The report is an excellent piece of study for investors who are looking towards the market.

Enterprise mobility is a growing area of opportunity for mobile network operators as the consumer segment represents a more fierce area of competition. Effective execution can ensure continued growth from highly valued revenue streams from wireless carrier’s best customers – the enterprise segment. In addition to a more cost-effective operation, there are many other advantages to an effective mobile device management strategy including improved sales, operational efficiencies, customer satisfaction, improved productivity, and business expansion. This research evaluates the current state and future of mobile devices and management for the enterprise.

The report analyzes approaches to existing issues, such as BYOD and Cloud, as well as anticipated future areas. The report includes an outlook for 2014 to 2019 and associated forecasting. Topics covered in the report includes:

- Technology and Business Trends: A review of the underlying technology supporting enterprise mobile devices and business issues
- Select Vendor Analysis: Analysis of how select vendors will position themselves to capitalize on enterprise mobility
- Analysis of Managed Mobility Services: Evaluation of MDM, MAM, and MCM
- Market Analysis and Forecasts: A global and regional assessment of the market size and forecasts from 2014 to 2019.

All report purchases include time with an expert analyst who will help you link key findings in the report to the business issues you're addressing. This needs to be used within three months of purchasing the report.

Table of Contents:

1 Introduction 7

1.1 Executive Summary 7

1.2 Topics Covered 11

1.3 Target Audience 12

1.4 Companies Mentioned 12

2 Enterprise Mobile Device Overview 14

2.1 Devices and Issues 14

2.1.1 Mobility Platform 15

2.1.2 Bring Your Own Device (BYOD) 17

2.1.3 History of Enterprise Mobile Devices 20

2.1.4 Bring Your Own Tablet 21

2.1.5 Consumerization of IT 28

2.2 The Importance of Enterprise Mobile Device 28

3 Enterprise Mobility Management 32

3.1 Mobile Device Management (MDM) 32

3.2 Mobile Application Management 33

3.3 Financial Management 33

3.3.1 Technical Assistance 33

3.3.2 Security 34

3.4 Mobile Business Intelligence (Mobile BI) 34

3.4.1 Mobile BI Applications 35

3.5 Mobile Security 37
